

How You Can Overcome COVID-19–Related Disparities

Start with effective communication and patient education

Tell all your patients about free vaccines, at-home testing kits, and treatments

Improve access to on-site testing

- ✓ Convenient location and flexible hours
- ✓ Access via public transportation (or mobile unit)
- ✓ Access regardless of insurance
- ✓ Availability of interpreters

Use Test-to-Treat sites when available

Adopt telehealth

- ✓ Minimizes travel barriers
- ✓ Uses interpreters when needed
- ✓ Provides “how-to” information based on
 - Health literacy
 - Language proficiency
 - Technology access
