Resources for Implementing Long-Acting ART

DECERA CLINICAL Education

1 Getting Started: Implementation Playbooks, Workflows & Templates

- American Academy of HIV Medicine Long-Acting Agent Resource Center
  - Practical, ready-to-use clinic tools (eg, SOPs, patient tracking, operational workflows) to help you start up and run a long-acting ART program
    - hivlaa.org/administrative/
- HIVMA/NASTAD Long-Acting Antiretroviral Treatment—Considerations for Health Care Providers
  - A concise overview of key clinical and operational considerations when offering long-acting ART
    - hivma.org/globalassets/hivma/news/hivma-nastad-long-acting-arvs.pdf
- Ward 86 Long-Acting Antiretroviral Treatment Guidelines
  - Detailed, practice-based guidelines from a high-volume program describing workflows and clinical approaches for long-acting ART delivery
    - gettingtozerosf.org/ward-86-lai-prevention-treatment-guidelines/

2 Clinical Guidance: When and How to Use Long-Acting ART

- International Antiviral Society–USA Panel 2024 Recommendations
  - Comprehensive ART recommendations that provide clinical context for regimen selection and management
    - iasusa.org/2024/12/01/antiretroviral-drugs-treatment-prevention-hiv-adults-2024-recommendations-of-the-international-antiviral-society-usa-panel/
- HIVguidelines.org Injectable CAB/RPV LA as Replacement ART
  - Practical clinical guidance focused on switching from oral ART to injectable cabotegravir/rilpivirine
    - hivguidelines.org/guideline/hiv-art-injectable/

3 Safety & Problem-Solving: Consults and Drug–Drug Interactions

- National Clinician Consultation Center
  - Provides access to experts for guidance with your HIV-related clinical questions when you need case-specific decision support
    - nccc.ucsf.edu/
- University of Liverpool HIV Drug Interaction Checker
  - A fast, searchable tool to identify and manage HIV medication interactions (useful for regimen changes and concomitant meds)
    - hiv-druginteractions.org/

4 Care Delivery Models: Differentiated Service Delivery & Reaching Patients

- HIVMA White Paper Systems-Level Innovative HIV Care Models
  - Provides background and examples of care delivery models that can support access, retention, and equity (useful for program design and stakeholder buy-in)
    - hivma.org/globalassets/hivma/innovative-service-delivery-whitepaper.pdf

5 Point-of-Care Tools

- HIV Care Tools App
  - A clinician-facing app with HIV care tools designed for quick reference in clinic
    - aidsetc.org/app
